How to set up an sstp vpn connection?

the question is simple: how to set up an sstp vpn connection in ubuntu 11.04?
as of this moment I haven't been able to find a way to make an sstp vpn connection.

vpn

I've just found [sstp-client](#), I haven't test yet, but it may help :) – [Behzadsh](#) Sep 30 '11 at 19:51

thanks, I'll give it a try. – [Hamed Momeni](#) Oct 1 '11 at 6:30

You can give a try as described here, installing by yourself two programs, sstp-client and its network-manager support:

For **Ubuntu Desktop 14.04 LTS**: manual install (`dpkg -i *.deb`) packages downloaded from [here](#):

1. libsstp-client0_1.0.10-0ubuntu3_amd64.deb
2. sstp-client_1.0.10-0ubuntu3_amd64.deb
3. network-manager-sstp_0.9.8.8-0ubuntu1_amd64.deb
4. network-manager-sstp-gnome_0.9.8.8-0ubuntu1_amd64.deb

For **Ubuntu Desktop Linux 15.04 (Vivid Vervet) 64-bits**:

1. libsstp-client0_1.0.10-0ubuntu3_amd64.deb
2. sstp-client_1.0.10-0ubuntu3_amd64.deb
3. network-manager-sstp_0.9.10.0-0ubuntu3_amd64.deb
4. network-manager-sstp-gnome_0.9.10.0-0ubuntu3_amd64.deb

For **Ubuntu Desktop Linux 15.10 (Wily Werewolf) 64-bits**:

1. libsstp-client0_1.0.10-0ubuntu4_amd64.deb

2. sstp-client_1.0.10-0ubuntu4_amd64.deb
3. network-manager-sstp_0.9.10.0-0ubuntu4_amd64.deb
4. network-manager-sstp-gnome_0.9.10.0-0ubuntu4_amd64.deb

For **Ubuntu Desktop Linux 16.04 (Xenial Xerus) LTS 64-bits**:

1. libssstp-client0_1.0.10-0ubuntu6_amd64.deb
2. sstp-client_1.0.10-0ubuntu6_amd64.deb
3. network-manager-sstp_1.2.0-0ubuntu2_amd64.deb
4. network-manager-sstp-gnome_1.2.0-0ubuntu2_amd64.deb

https://launchpad.net/~eivnaes/+archive/ubuntu/network-manager-sstp/+packages?field.name_filter=&field.status_filter=published&field.series_filter=xenial

Also: packages can be installed from [this PPA](#)

Although your answer is 100% correct, it might also become 100% useless if that link is moved, changed, merged into another one or the main site just disappears... :-(Therefore, please [edit](#) your answer, and copy the relevant steps from the link into your answer, thereby guaranteeing your answer for 100% of the lifetime of this site! ;-) You can always leave the link in at the bottom of your answer as a source for your material... – [Fabby](#) Mar 15 '16 at 9:49

Naah, not my style: I will specifically say "downvoted" if I do and why... (and here I didn't) I just left a comment for you to improve and you did. I also cast a delete vote (which I just retracted) and just upvoted as well! Don't worry about the down votes too much: some people are negative and like down voting without leaving comments: I'm not and try to stay positive... ;-) – [Fabby](#) Mar 15 '16 at 16:28

Fabby, thanks for the additional edition of my answer. Have a nice day. – [Aleksey Maksimov](#) Mar 15 '16 at 20:18

ssstp-client works, but I've found it to be very slow for some applications such as SVN (compared to PPTP it was orders of magnitude slower): `svn log --diff -r head:pastrev` – [Apteryx](#) Mar 31 '16 at 17:02

I tried to install it on Ubuntu 16.04 but it has problems with ppp library. Are you going to provide version for 16.04 ? – [AValchev](#) Apr 20 '16 at 7:07
